

- Astrocytes
- Cerebellum neurons
- Cholinergic and monoaminergic neurons
- Choroid epithelial cells
- Dentate gyrus granule neurons
- Dentate gyrus radial glia–like cells
- Di– and mesencephalon excitatory neurons
- Di– and mesencephalon inhibitory neurons
- Ependymal cells
- Glutamatergic neuroblasts
- Hindbrain neurons
- Microglia
- Non-glutamatergic neuroblasts
- Olfactory ensheathing cells

- Olfactory inhibitory neurons
- Oligodendrocyte precursor cells
- Oligodendrocytes
 - Peptidergic neurons
 - Pericytes

 - Perivascular macrophages
 - Subcommissural organ hypendymal cells
 - Subventricular zone radial glia-like cells
 - Telencephalon inhibitory interneurons
 - Telencephalon projecting excitatory neurons
 - Telencephalon projecting inhibitory neurons
 - Vascular and leptomeningeal cells
 - Vascular endothelial cells
 - Vascular smooth muscle cells
